Heimtextil 2019

In January, the doors of Heimtextil will open again – an important trade show regarding curtains, wallpaper, upholstery, household linen and much more. And right in the thick of it: digital printing. Its flexibility is the right answer for the increasing request for individuality.

02

Screen printing mesh

The whole screen printing process starts with the mesh. And the right choice of mesh determines factors like how good the print quality and how durable the screen is. So it is important to find the right product for your application.

03

POS Applications with inkjet

It has to be brilliant, and the colors must match. It has to have a fast turnaround, but also great quality. There individual solutions as well as long runs. Point-of-Sale Printing is a big and interesting market. We show which machines are used for the different applications.
